

main

parseFile

BatchCreator::getDataStream

```
graph LR; main --> parseFile; parseFile --> BatchCreator[BatchCreator::getDataStream];
```

The diagram illustrates a sequence of three function calls in a horizontal flow. The first box, labeled 'main', is a white rectangle with a black border. A blue arrow points from its right side to the second box, labeled 'parseFile', which is also a white rectangle with a black border. Another blue arrow points from the right side of the 'parseFile' box to the third box, labeled 'BatchCreator::getDataStream'. This third box is a gray rectangle with a black border. All three boxes are aligned horizontally and have a consistent height.
