

src/include/KeyValidator.hpp

```
graph BT; A[src/sources/JsonHandler.cpp] --> B[src/include/KeyValidator.hpp]; C[src/sources/KeyValidator.cpp] --> B;
```

The diagram illustrates a C++ project structure. At the top is a header file, `src/include/KeyValidator.hpp`, represented in a grey box. Below it are two source files: `src/sources/JsonHandler.cpp` on the left and `src/sources/KeyValidator.cpp` on the right, both in white boxes. Blue arrows point from the top-right corner of the `JsonHandler.cpp` box and the top-left corner of the `KeyValidator.cpp` box to the bottom edge of the `KeyValidator.hpp` box, indicating that both source files include this header.
